**\*\*Please indicate if medications are being given differently than prescribed\*\***

Personal Items being left with pet? \_\_\_\_\_

Bradfordville Animal Hospital is committed to doing all that is possible to insure the health and safety of pets in our care. Because of this, all pets entering the hospital must be current on vaccinations and free from internal and external parasites (fleas & ticks). If you obtain your vaccines at another veterinary hospital and we are unable to verify the vaccines are current by close of business the day you drop off, we will vaccinate you pet per our hospital policy at the owners expense.

Please be assured that every effort is made to make your pet as comfortable as possible during its stay here. However, because boarding can be a stressful experience, your pet may exhibit symptoms that require medical attention. Should this occur, we will undertake only the amount of treatment we feel is necessary to help your pet. Appropriate charges will be assessed on the final bill. Thank you for entrusting your pet to our care!
